

2019 ANNUAL REPORT

DAMIEN
CENTER

REFLECTING ON 2019

Thank you for opening this report. We look forward to sharing with you just a few of the highlights of the past year at the Damien Center. And we hope that by the time you finish reading this, you will share in our excitement.

As we write this in June of 2020, it seems clear that **we are at a pivotal moment** in the Damien Center's history. As Damien's programs are proving effective, our client base is expanding to encompass a larger proportion of the HIV+ community. Simultaneously, the community is experiencing unprecedented needs, and programs are evolving rapidly to meet them. **We are embarking on a new phase of our journey, and we hope you will walk alongside us!**

Warmest regards,

Alan Witchey (he/him/his)
President & CEO

Garry Elder (he/him/his)
Board Chair

CLIENT SUCCESS DEBORAH'S STORY

When Deborah learned about her HIV status, she struggled with her own misconceptions, an unsupportive family who kicked her out of her home, and a new reality that made her feel frightened and alone. The Damien Center embraced her, gave her access to food and stable housing, provided her with vital medical care, and empowered her to become her best self.

"I'm so grateful, I didn't have any food, I had access to a food pantry...I didn't have a place to stay, they helped me. These people didn't know me, but they embraced me," says Deborah.

2020 & LESSONS FROM HIV

HOW THE PAST INFORMS OUR FUTURE

In 2020, the world continually seems to be turning upside down and we see calls for help emerging all around us. The hardships caused by the COVID-19 pandemic, economic insecurity, and our country's struggles around racial justice have disproportionately affected vulnerable populations. However, at the Damien Center, we have seen the tremendous grassroots response through outpouring generosity from our neighbors near and far. The support has emerged on a local level from the ground up.

Many of us cannot help but consider the parallels between COVID-19 and the global pandemic of HIV/AIDS. In the early days of HIV/AIDS, volunteers turned into advocates and many in the BIPOC and LGBTQ+ communities led the charge to see change. Across the country, AIDS Service Organizations like the Damien Center were founded by brave, caring heroes who stepped up to share the burden of those affected by HIV/AIDS. Through the courage, ingenuity, and compassion of these advocates, we saw change emerge in the form of the Ryan White CARE Act and subsequent government funding of research, treatment, and prevention.

Like all pandemics, HIV/AIDS and COVID-19 place an unequal burden on vulnerable populations. Many of the most at-risk individuals do not have equitable access to medical care, mental health services, housing, or even food. And of course, there is the burden of risk for those who are older or who have existing conditions, like many people living with HIV.

This is why we are here. After adapting quickly to respond to the pandemic, the Damien Center continues to seek solutions to adapt services as needed and continue empowering our clients and those affected by HIV/AIDS. Now, more than ever, it is critical that clients stay engaged and retained in care, and it falls upon us to ensure these individuals have access to equitable care. Our clients can now access many services remotely, including mental health appointments, addiction therapy, psychiatric care, and medical services. Over three dozen homeless individuals were moved from high-risk shelters to more secure housing.

Clients come first – and the Damien Center will be here, now more than ever, to meet their changing needs and continue to stand as one home for HIV wellness. We know from experience, that with your support, we can and will rise above this crisis and pave another way forward.

OUR COVID-19 RESPONSE

SECURE & SAFE HOUSING

39 high-risk individuals were placed in secure, safe housing during this pandemic.

INCREASED CAPACITY FOR TELEHEALTH

Telehealth was rolled out to nearly every program at the center to protect the health of our clients.

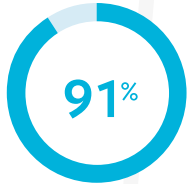

COMMUNITY FOCUS

OUR SERVICES

COMMUNITY IMPACT

ONE HOME FOR HIV WELLNESS

VIRAL SUPPRESSION

91% of our medical patients achieved an undetectable viral load compared to the Central Indiana average of 58%.

CLIENTS SERVED

Through all of our program, we served **4,262 individuals** in 2019.

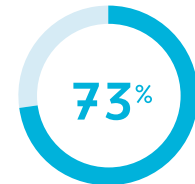

LINKED TO CARE

We linked **95% of new HIV cases to care within 30 days**, almost doubling the average rate for Central Indiana at 48%.

KNOW YOUR STATUS

3,400 free HIV tests were completed in 2019.

RETAINED IN CARE

Our clients had a **retention rate of 73%** compared to the Central Indiana average of 43%.

QUALITY OF CARE

95% of patients were satisfied with their care.

OUR SUCCESSES

In 2019, Damien Center embarked upon a new strategic plan. Staff engagement grew and turnover decreased. Private funding grew, and more donors were engaged than in 2018. Damien Center was in the news more, and a greater number of people volunteered a greater number of hours. More clients received services, both overall and in most programs—including the clinic, food pantry, housing, mental health, PrEP services, and testing. More clients achieved viral suppression. And these are just a small subset of 2019’s accomplishments.

\$524,191
Private revenue increase

IN 2019, PREP SERVICES INCREASED BY 51%.
